Subject: Announcing Our New Name — **Athens Bioscience, Inc.**

Dear Valued Customer, Partner, Vendor, and Employee,

After more than four decades of serving the global life sciences community, I am excited to announce that Athens Research & Technology, Inc., will officially become Athens Bioscience, Inc., effective April 6, 2026.

This milestone marks more than a new name—it represents the continued evolution of a company deeply rooted in scientific integrity, quality, and service. Athens Research & Technology has long stood for excellence in native protein purification and research support. Under our new name, **Athens Bioscience, Inc.**, we reaffirm that same foundation while embracing a broader vision: to advance bioscience innovation worldwide through precision manufacturing, transparency, and collaboration.

Please note that this is a change in name only. Our ownership, leadership, and operations remain unchanged, and there will be no disruption to the products, services, or partnerships you rely on. The transition simply reflects who we have become—a modern, globally engaged bioscience company building on decades of trusted expertise.

Beginning **April 6, 2026**, all business correspondence, invoices, and payments should reference the company's new name and contact information:

**New Company Name:** Athens Bioscience, Inc.

**Physical Address:** 110 Trans Tech Drive, Athens, GA 30601

**Mailing Address:** PO Box 80785, Athens, GA 30608-0785

**Phone:** +1 706-546-0207

**Email:** [marketing@athensbioscience.com](mailto:marketing@athensbioscience.com)

**Website:** [www.athensbioscience.com](http://www.athensbioscience.com)

All existing **@athensresearch.com** email addresses will remain active for a period of time following the transition to ensure seamless communication. The company's tax identification number and operations remain the same.

As Athens Bioscience, Inc., our focus remains steadfast: providing researchers, diagnostic developers, and global life science partners with the highest-quality proteins and reagents—products that underpin discovery, innovation, and human health. This change unites our legacy of scientific excellence with a renewed purpose and brand identity that reflects our role in today's bioscience landscape.

Thank you for your continued trust, partnership, and support as we embark on this next chapter. Together, we will carry forward the proud heritage of Athens Research & Technology under a name that represents our future.

With appreciation and optimism,

John Mitchell

Chief Executive Officer

Athens Research and Technology (Transitioning to Athens Bioscience, Inc. on April 6, 2026)
