

Protein Plus BCT™ and Nucleic Acid Plus BCT™ Equivalence Letter

Effective April 21, 2026, Streck has replaced Protein Plus BCT with Nucleic Acid Plus BCT. As part of this transition, new catalog numbers and SKUs have been introduced and the Protein Plus BCT catalog numbers will be retired. Nucleic Acid Plus BCT will begin shipping on May 15th, 2026.

Product equivalence

Streck confirms that Nucleic Acid Plus BCT is equivalent to Protein Plus BCT. There are no changes to:

- Formulation
- Tube components
- Manufacturing process
- Performance characteristics
- Intended research applications for same reagent formulation now spans cfNA, miRNA, EV and select plasma proteins

Data generated using Protein Plus BCT remains valid and applicable.
